Why AquaSolus

Peace of Mind.

We engineer every AquaSolus for minimal demand on your time, leaving you free to focus entirely on the experience, all backed by the reassurance of our Solus Guarantee *(see page 90)***.**

Water Care

Ozone injected.

Ozone treatment purifies your water during filtration cycles, helping to reduce chemical reliance.

Straightforward Maintenance

Light touch.

Routine care takes just minutes. Keep the cover on when not in use and rinse the filters as part of your water care.

LED Chromotherapy

Designed for atmosphere.

Effortlessly cycle through six shades, from calming underwater tones to warm evening accents, calibrated to match your mood.

Audio Performance

Premium sound.

Stream music instantly via Bluetooth through built-in stereo speakers and an integrated subwoofer.*

Heat Pump Ready

Lower costs.

Pre-configured ports make connecting an air-source heat pump straightforward, reducing your long-term running costs.

Dealer Installation

Locally fitted.

Your local partner handles delivery, positioning, and connection, ensuring your installation is completely effortless.**

*Premium audio only in Series 1,2,3 and Swim Spa Series.
**32 & 40 amp (Single Phase) and 16 amp (3-Phase) main power supply must be signed off by a certified electrician.

Luna Grey Cabinet

Beautiful from every angle.

Designed to naturally elevate your outdoor space, our cabinets reflect intention in every detail. Clean architectural lines and premium materials ensure every AquaSolus sits as a serene, permanent feature in your garden through every season.

All-weather exterior.

Built to endure the elements without fading. Weather-resistant, low-maintenance, and naturally elegant year-round.

Color-matched steps.

Crafted in the same refined finish, our steps can be paired with your cabinet for safe access and a complete, unified look.

Insulated cover included.

Supplied with a thick, insulated cover designed to retain maximum heat, protect against debris, and reduce running costs.

Effortless lifter compatibility.

Engineered to integrate seamlessly with our cover lifter, allowing smooth, low-profile operation every time you step in.

Engineered to Endure

Unrivaled Build Quality.

Designed and engineered in the UK, every AquaSolus is built from the inside out to lock in heat, withstand the elements, and deliver year-round efficiency.

By pairing advanced thermal insulation with a heavy-duty, 304 stainless steel frame, we ensure exceptional stability, lower running costs, and lasting performance in every season.

Full-Coverage Insulation.

Using the same advanced insulation technology engineered for modern homes, we wrap the internal structure to lock in heat and protect vital components from severe winter freezes.

Dual-Strength Frame.

Using a dual-frame design, we combine a water-resistant wood-plastic-composite cabinet frame for rigid outer support with a 304 stainless steel internal frame that bears the core weight for complete, long-term stability.

10-Year Structural Warranty.

We cover the structural integrity of the shell and frame for 10 years against water loss caused by defects in materials or workmanship as part of our Solus Guarantee *(see page 90)*. Full warranty terms and conditions apply.

Acrylic

Three finishes, your choice.

Crafted using premium acrylics, including industry-leading Aristech, we build every AquaSolus shell for exceptional durability and chemical resistance.

Each surface provides an enduring, low-maintenance finish across three curated shades, making it simple to complement your surrounding landscape and define your space.

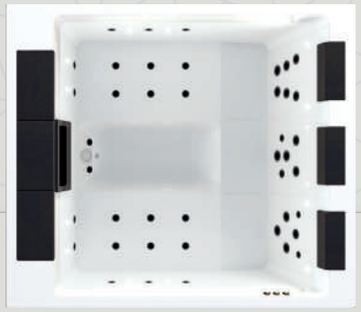

Sterling Silver.

*Only available on the following models: Vacation Club 25, Vacation Club 28, Mirage, Mirage Spa, Diva Pool 24, Diva Pool 42, Diva Relax 25, Diva Swim 42, Lounge Divine Plus, Lounge Divine Pure.

Water Care

Stay clean. Stay clear.

By combining high-performance filtration with ozone purification, we keep your water crystal clear year-round, taking the effort out of daily care so you can focus on relaxing.

Dual Cartridge Filtration.

Two filter cartridges work in parallel to deliver superior water clarity.

Effortless Maintenance.

Filter cartridges clean easily using a standard hose or tap. No specialist tools required.

Ozone Purification.

Sanitizes water during heating and filtration cycles, reducing chemical reliance.

Crystal-Clear Confidence.

Keeps water pristine between soaks, making water care simple.

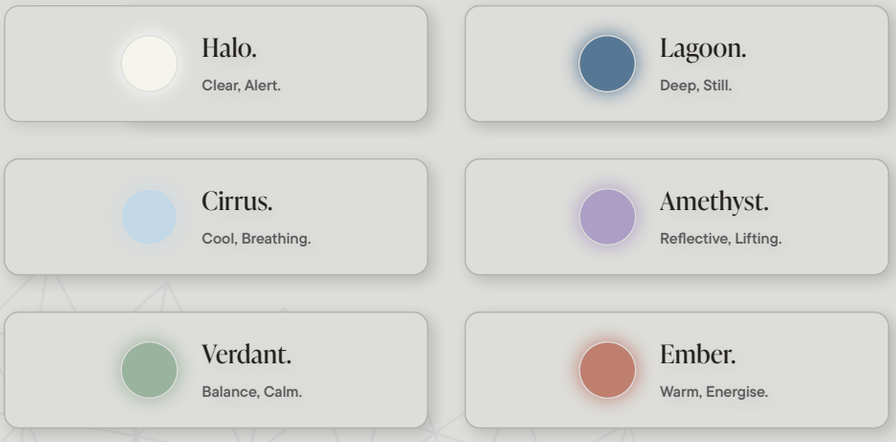

Chromotherapy Lighting

Designed for atmosphere.

We build multi-point LED lighting seamlessly into every AquaSolus, transforming the ambiance of your spa at the touch of a button.

Effortlessly cycle through six curated shades, ranging from Halo to Ember, each calibrated to match your mood, featuring everything from calming underwater tones to warm evening accents. Strategically positioned LEDs illuminate above and below the waterline, creating a rich, balanced glow without harsh glare.

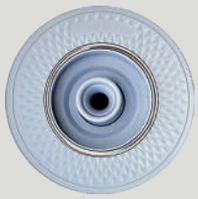

Where it Works

Hydrotherapy with purpose.

We intentionally position our jets to target key muscle groups, delivering personalized, deep-tissue relief right where you need it most.

Bringing together four specialized jet actions with fully adjustable pressure across key zones, they work in harmony for a completely tailored massage.

Targeting

Adjustable Pressure

Slimline - Multi-directional

Engineered specifically for back relief, this targeted jet gives you effortless control over dual-direction therapy with a simple turn of the dial.

Kneading

Deep Muscle Kneading

Slimline - Tri-Impeller

Dynamic relief that delivers a continuous, rotating spiral across tired muscles through our tri-impeller, designed to melt away stubborn tension.

Cascading

Broad Shoulder Therapy

Slimline - Multi-arm Star

Our multi-arm star system provides an expansive upper-body treatment, dispersing water coverage across the full width of your shoulders and upper back.

Circulating

Lower-Body Recovery

Slimline - Twin Vortex

Targeted calf and foot therapy, where we weave twin water streams into a restorative vortex built specifically for lower-body revival.

Series 1 & 2 - Sound System

Feel the bass.

*Example shown is Series 2 - Harmony

Immersive Acoustics.

Music sets the tone for how you unwind, connect, and reset.

We equip every AquaSolus for exceptional audio, blending crystal-clear sound with rich, resonant bass to transform your outdoor space into a sanctuary for relaxation or connection. Available as standard across Series 1 and 2 and the Swim Spa Series. Please refer to individual specifications for exact equipment.

For our most immersive audio experience, turn to page 44 to discover the upgraded sound system engineered exclusively for Series 3.

Bluetooth Connectivity.

Connect your device wirelessly in seconds for effortless control, managing your playlist and atmosphere without ever leaving the water.

Dual Stereo Speakers.

Positioned for crystal-clear audio, these speakers deliver a rich, natural sound tuned specifically to remain clear at conversational volumes.

Integrated Subwoofer.

Fitted as standard to provide deep physical bass, capturing the warm, low frequencies traditional outdoor speakers miss for true depth and emotion.

Bluetooth Audio

Stereo Speaker

Subwoofer

*Premium audio only in Series 1,2,3 and Swim Spa Series

Advanced Heating & Insulation

Comfort, more efficiently.

Enjoy effortless, year-round warmth.

Our AQ10 Eco-Heatlock insulation is engineered to surround the shell and base, locking in heat and maintaining water temperature. For even greater efficiency, we build selected models with future-ready compatibility for air-source heat pumps. Working in perfect harmony, our layered insulation and optional heat pump technology reduce the electricity required for water heating, lowering running costs and supporting comfortable, year-round use*.

Thermal barrier.

Layered insulation around the shell and base traps heat where it belongs.

Lower running costs.

Reduced heat loss keeps your reheating demand and energy bills low year-round.

Smarter ownership.

Thermal efficiency lowers your environmental impact without compromising performance.

Superior thermal retention.

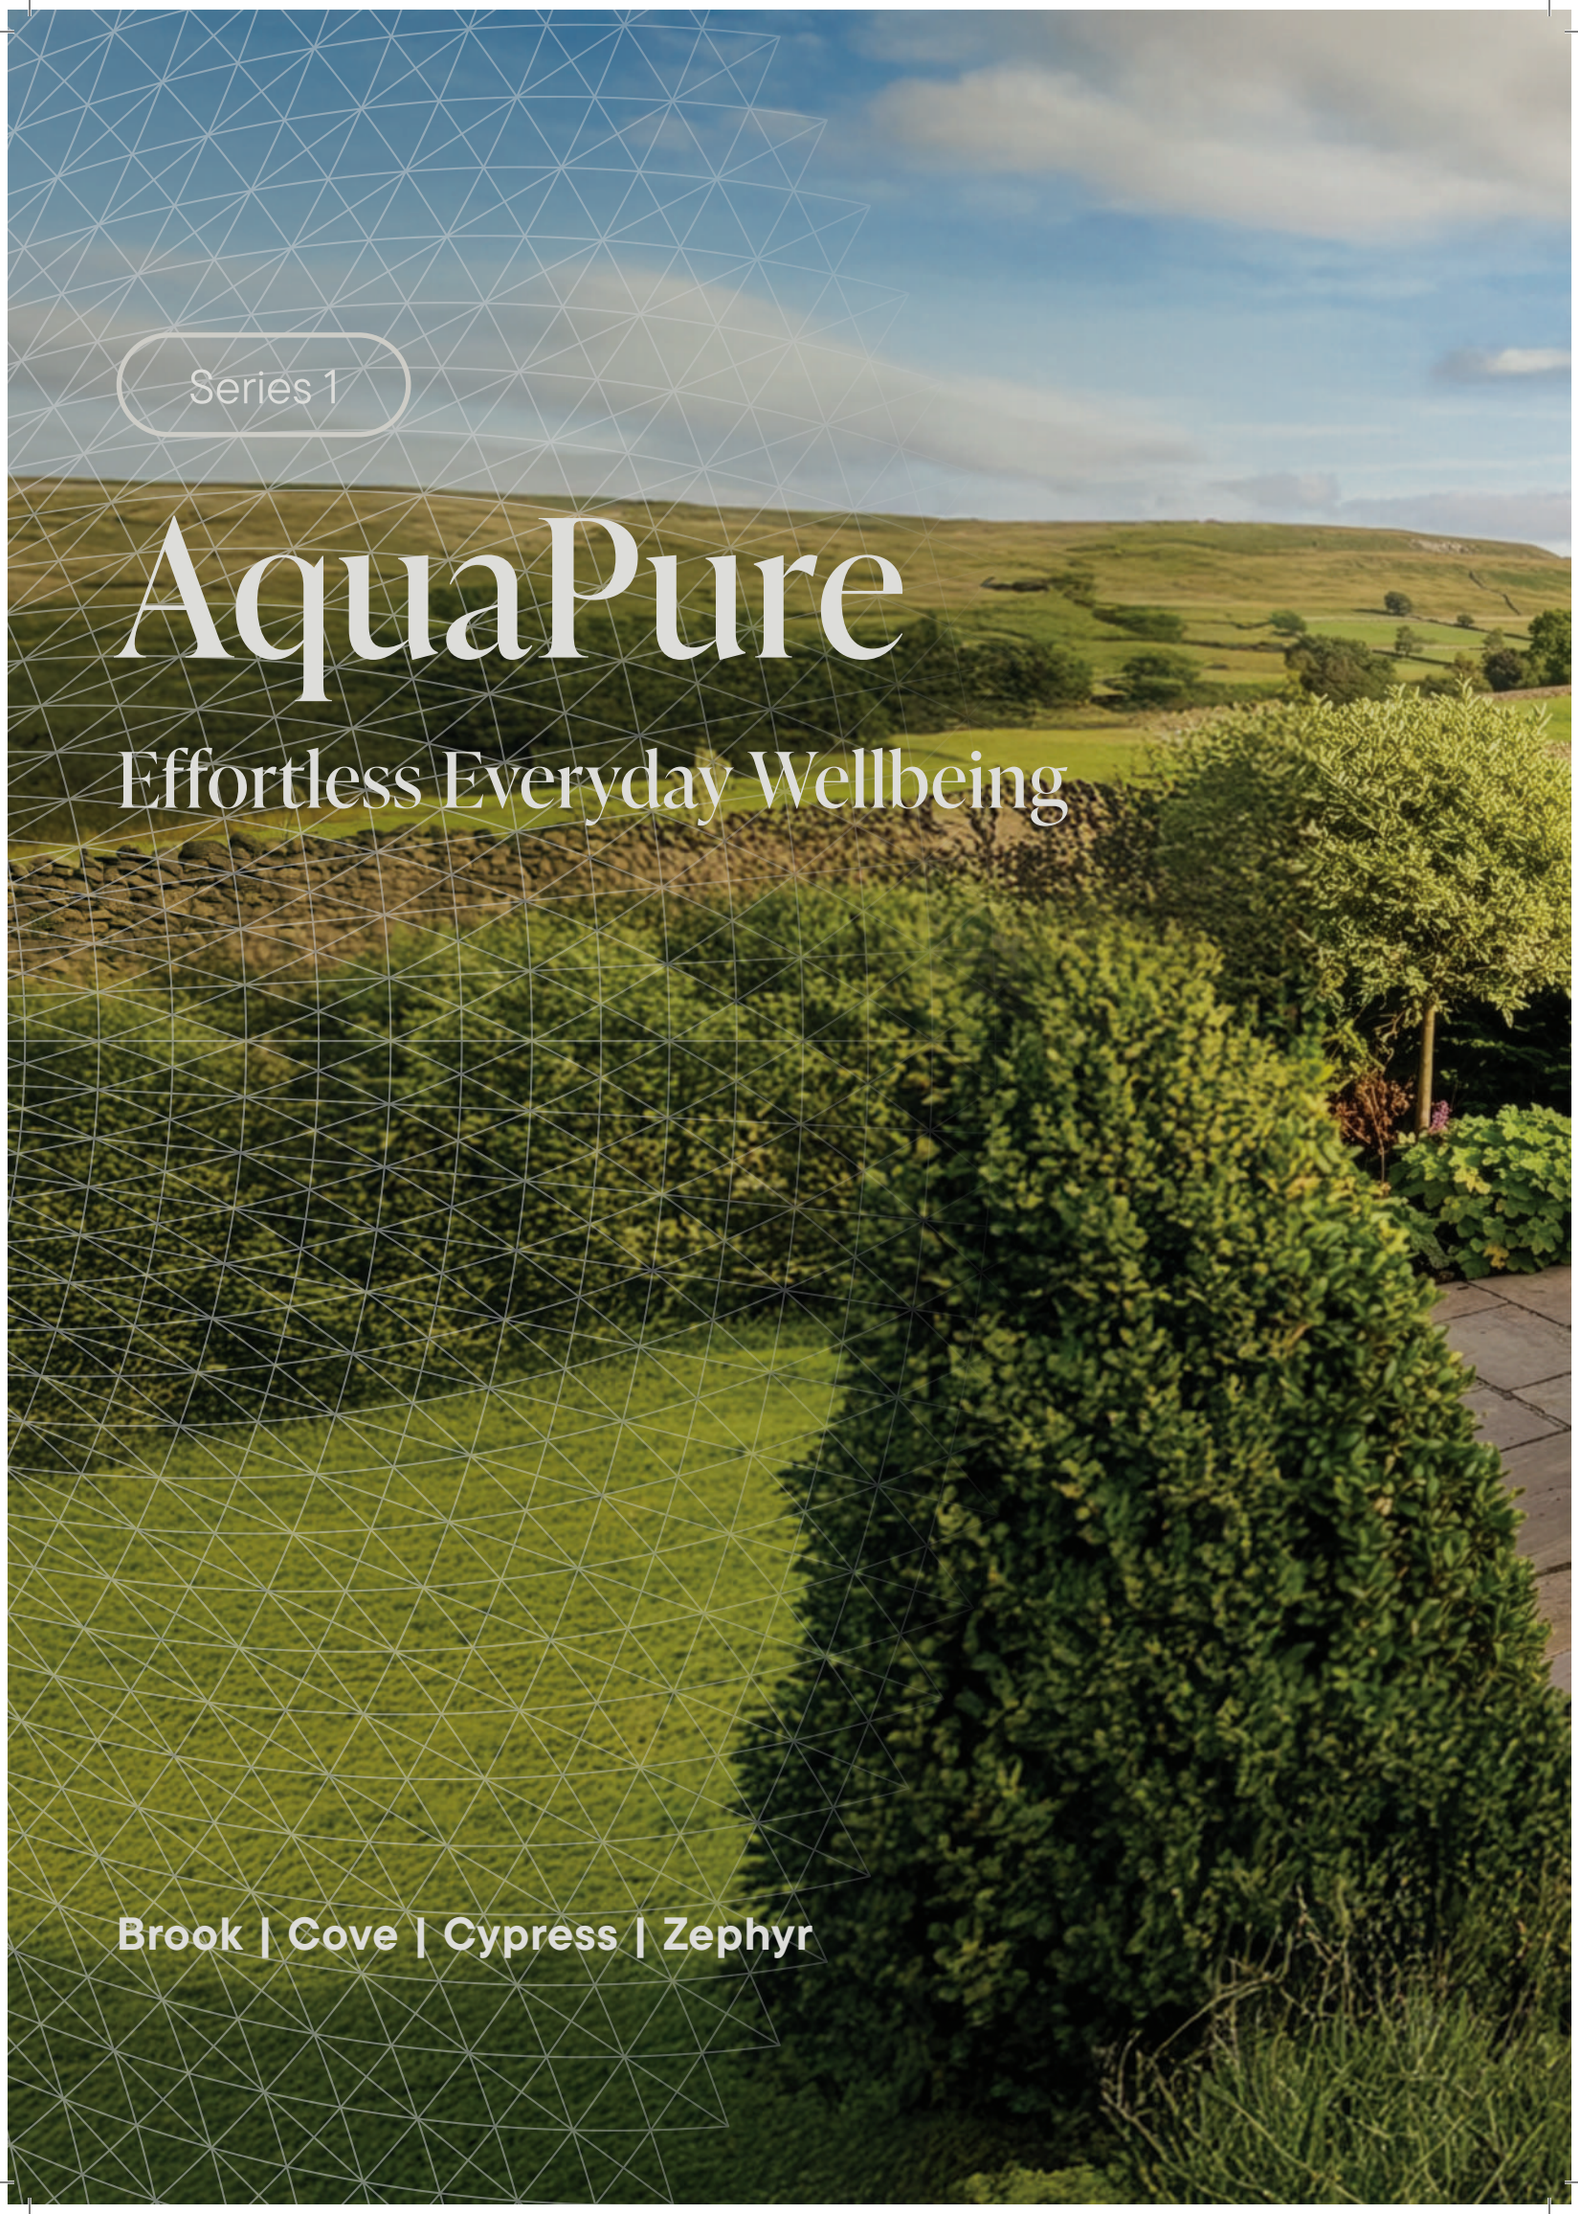

Advanced insulation keeps the cover cool while the water stays invitingly warm.

Recommended: Aquark Heat Pumps

Aquark heat pumps integrate directly with our AquaSolus control systems, delivering complete operational harmony and peak efficiency. Ask your AquaSolus dealer to include an Aquark quote with your order.

*Actual performance will vary by model, climate, settings and usage.

Series 3
AquaLux
Ultimate Luxury & Innovation
Cascade | Serenity | Solstice | Zenith

Series 3 - AquaLux

Pure Luxury Defined.

The AquaSolus Series 3, our most sophisticated collection, blends luxury, innovation, and performance into one seamless experience.

By combining elegant design features with intuitive controls, we have crafted every element to create a sanctuary of pure indulgence. Featuring programmable hydrotherapy massage sequences, real-time water monitoring, and immersive lighting and sound, Series 3 is built to redefine relaxation.

Series 3 - Controls

Intuitive control in every touch.

5” Touchscreen Interface.

Powered by the Gecko K1000+ control panel, the vivid 5-inch touchscreen puts effortless control right at your fingertips. Crisp icons and fluid navigation make adjusting your spa settings simple, elegant, and completely intuitive.

In.Touch 3+ with connectivity module & mobile app.

Stay connected to your spa from anywhere with our built-in Wi-Fi capability as standard. Pre-heat the water before stepping outside, adjust eco-modes to lower running costs while away, and receive real-time updates for completely effortless ownership.

Series 3 - Water Care

Real-time water monitoring.

High-Efficiency Ozone Purification

Enjoy softer, fresher water with fewer chemicals. By maximizing water-to-ozone contact time inside a pressure-free mixing chamber, our system dramatically boosts natural sanitization, reducing manual chemical treatments while keeping your water pristine.

Advanced UV Sanitization

Experience the ultimate in skin-friendly purity. Advanced ultraviolet light destroys bacteria at a microscopic level, drastically reducing the need for traditional additives while keeping your water crystal clear and odor-free.

Gecko Water Lab Continuous Monitoring

Take the guesswork out of water care. Continuous smart sensing tracks your water chemistry, giving you guidance on exact dosage needs so you spend less time testing and more time enjoying perfectly balanced water.

Ozone Mixing Chamber

Ozone Delay Chamber

Gecko Water Lab

Series 3 - Pumps & Jets

Personalized intensity & rhythm.

Tailored Hydrotherapy

Effortlessly match your experience to your mood. Whether you need a gentle wave to melt away daily stress or an invigorating sequence to breathe life into tired muscles, you can switch between expertly pre-set programs or craft a bespoke massage unique to you.

Sculpted High-Performance Jets

Enjoy deep, restorative hydrotherapy without compromising on seating comfort. Designed to sit flush against the ergonomic contours of the spa, our high-output jets direct water flow precisely where you need it most, for a smooth, completely seamless experience.

Series 3 - Design

Considered & seamless design.

Contemporary Stainless Steel Waterfall

Elevate your atmosphere with the soothing sight and sound of cascading water. Elegantly integrated and subtly illuminated, this sleek feature enhances your evening soak with a calm, tranquil mood and a touch of modern luxury.

Ergonomic Slimline Headrests

Lean back in total comfort with subtle, supportive headrests designed to cradle your head and neck naturally. Their low-profile shape blends seamlessly into the spa shell, combining long-lasting durability with a sleek, uncluttered aesthetic.

Integrated Magnetic Cup Holders

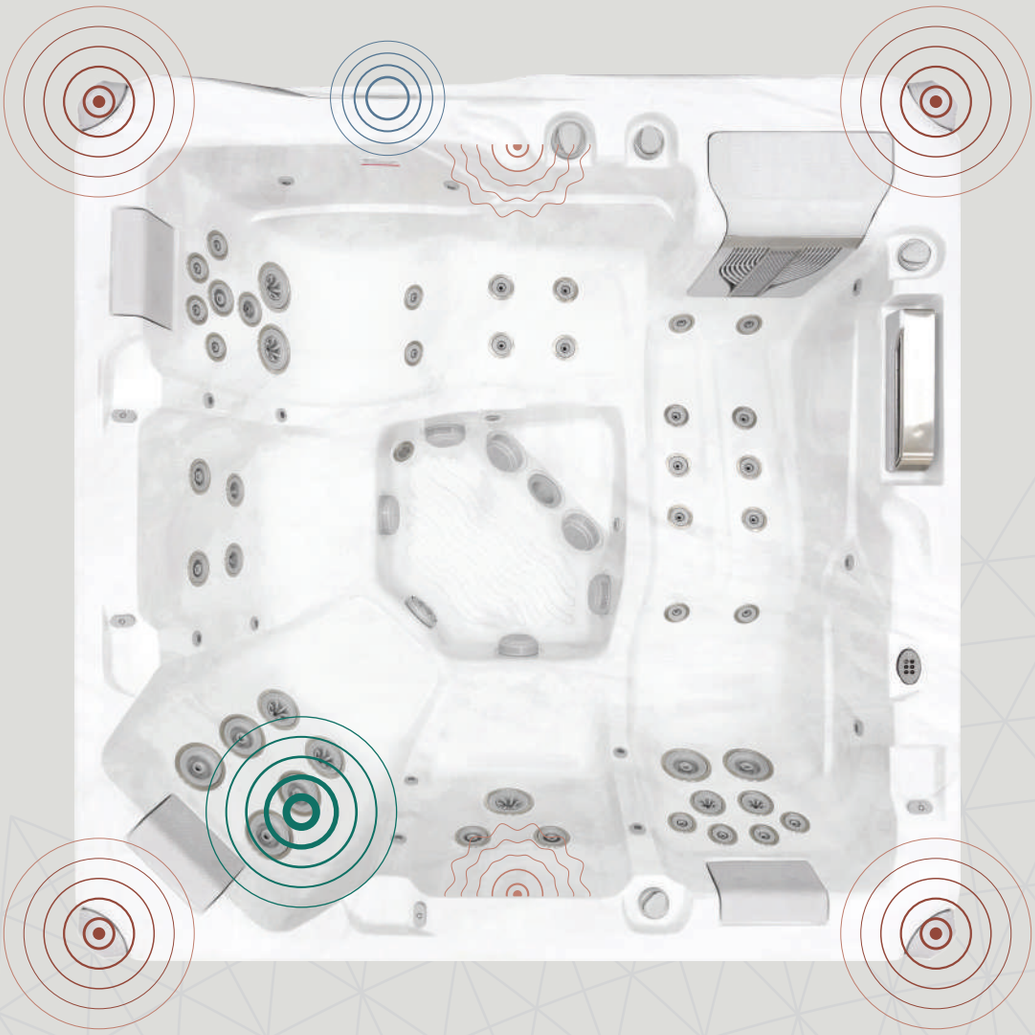

Keep your favorite refreshments secure and within arm's reach. Ingeniously hidden magnetic points hold drink-ware safely in place, preventing spills while keeping the spa's clean lines completely pristine.

Flush-Fitting Slimline Jets

Designed to sit virtually flat against the shell, our ultra-discreet jet fittings maintain a sleek, minimalist aesthetic while ensuring total comfort against your body.

Series 3 - Sound System

Sound quality you can feel.

*Example shown is Series 3 - Cascade.

High-Definition Sound. Immersive Atmosphere.

Set the perfect backdrop for relaxation or entertaining with our most advanced integrated audio system.

By combining high-performance stereo separation with subtle tactile sound waves through the water, we ensure every seat is the best seat in the house for an atmospheric listening experience.

We equip every Series 3 model as standard with quad corner stereo speakers, an integrated subwoofer, and two tactile acoustic transducers, creating a truly immersive surround-sound environment.

Gecko In.Stream Bluetooth Technology.

Effortlessly connect your favorite playlists, audio-books, or podcasts in seconds. Driven by an advanced audio amplifier, this intelligent central system processes sound with pristine clarity, delivering stable, high-fidelity playback across every volume level.

Integrated Subwoofer.

Add deep, resonant depth to your favorite music. By handling low frequencies independently, the dedicated subwoofer delivers full-bodied bass while allowing the corner speakers to focus purely on crisp, detailed mids and highs.

Quad Corner Stereo Speakers.

Fill your space with rich, balanced sound. Positioned at each corner and subtly illuminated with LED accent lighting, four precision-tuned speakers create a wide, enveloping sound-stage, delivering crystal-clear audio at conversational volume, no matter where you sit.

Tactile Acoustic Transducers.

Experience the pinnacle of aquatic sound. Mounted directly to the interior shell, dual transducers transmit low-frequency sound waves through the water itself, allowing you to physically feel the gentle rhythm of the bass for a truly multi-sensory, immersive experience.

Swim Spa Series

Tailored power. Total recovery.

WhatSpa? Best Buy Award Winner

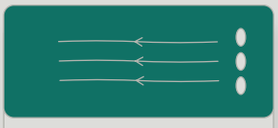

Engineered for active living, our award-winning Swim Spas combine a dedicated swim lane with targeted hydrotherapy. Built around three distinct water configurations, the collection lets you choose the ideal environment for how you train, recover and relax.

Pro

The ultimate trainer.

Powered by our 9-speed AquaSolus turbine, creating a smooth, turbulence-free current for high-intensity training or gentle recovery laps.

Standard

The continuous swim.

Three precision river jets deliver a broad, adjustable current down the length of the pool, ideal for endurance sessions and everyday fitness.

Two spaces in one.

Combines a dedicated swim lane with a separate hydrotherapy hot tub for completely independent climate control.

Versatile Pacing: The 9-Speed Turbine

Designed for every level of swimmer, our turbine produces a deep, glass-like current centered directly down the swim lane. Using the Gecko in.k1000+ touchscreen, navigate 9 precision speed settings to transition effortlessly from low-impact recovery to a 0:56/100m pace.*

Mini Pool Series

Endless Enjoyment

Crest | Crest Professional | Lagoon | Lagoon Professional
Tidal | Tidal Professional | Wave | Wave Professional
Lounge Divine Pure | Lounge Divine Plus
Mirage | Mirage Spa | Diva Pool 24
Diva Pool 42 | Diva Relax 25 | Diva Swim 42

The Signature Formats

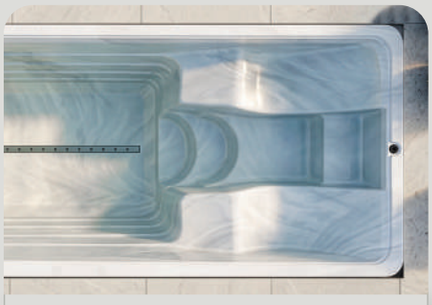

Four shapes. One footprint.

While the AquaSolus collection spans a wide variety of dimensions, these four featured families showcase our most versatile layout designs.

Crest.

Inset corner steps for a seamless entry.

Lagoon.

Twin ergonomic loungers for relaxation.

Tidal.

Full-width steps for easy entry.

Wave.

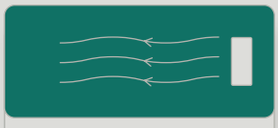

Open format for maximum swim space.

Mini Pool Series

Three ways to experience water.

WhatSpa? Best Buy Award Winner

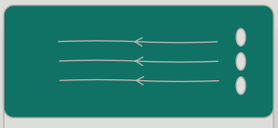

Designed for complete versatility, our award-winning AquaSolus Mini Pools serve as a tranquil plunge, a family leisure space, or a dedicated swim trainer. Built around three distinct water configurations, the collection lets you choose the exact environment for your lifestyle.

Pro

The serious swim.

Powered by our 16-speed AquaSolus turbine, creating a glassy, turbulence-free current for elite training or gentle recovery laps.

Standard

The endless pool.

Three precision river jets deliver a broad, continuous current down the length of the pool for endurance training and daily fitness.

Lite

The quiet plunge.

Designed purely for space and stillness. Enjoy crystal-clear water crafted for cold dips, warm soaks, and effortless socializing.

Precision Pacing: The 16-Speed Turbine

Engineered for pure performance, our turbine powers a wide, perfectly laminar current across the entire length of the pool. Controlled via the Gecko in.k1000+ touchscreen, 16 distinct speed levels seamlessly adjust from gentle recovery laps to an elite 0:32/100m sprint pace.*

Precision Pacing	16 Speed Levels*	0:32 Top Pace / 100M*

* Professional models only: Crest Professional, Lagoon Professional, Tidal Professional, Wave Professional

The Solus Guarantee

Total Peace of Mind.

Invest with complete confidence. The Solus Guarantee comes standard across every series, delivering consistent, comprehensive protection regardless of the model you select or where you buy.

Supported directly through our worldwide network of authorized dealers for quick, effortless assistance, your investment is fully protected from day one. To help us maintain this exceptional standard of care, all damage must be reported with photographic evidence within 30 days.

Warranty Overview

10 Years

Shell & Frame Structure.

Covered for 10 years against water loss caused by defects in materials or workmanship.

7 Years

Shell Surface.

Against blistering, cracking and delamination of the acrylic surface itself.

2 Years

Control Box and Display.

Against defects in materials and workmanship. Excludes fuses, bulbs and gaskets.

2 Years

Cabinet.

Against cracking and peeling from defects in material or workmanship. Natural fading and weathering are not warrantable.

2 Years

Pumps.

Both jet and circulation pumps. Defects in materials or workmanship.

2 Years

Plumbing.

Against leaks from fittings, pipes, drains, joints, internal plumbing, bonded parts and jet housings.

2 Years

Ozone, Audio and LEDs.

Ozone generator, factory-installed audio components (incl. Bluetooth modules) and factory-installed LED lights.

2 Years

Cover, Plastics & Jets.

Thermo cover, filter housings, pillows, diverters, waterfalls, cup holders, steps and jets. Damage from misuse or poor water chemistry not covered.

*Any damage found must be reported within 30 days and supported with photographic evidence. Claims for damage that worsen as a result of not being reported on time may be rejected.
